EDUCATION

Narasaraopeta Engineering College Computer science and Engineering Bachelors of Engineering <i>CGPA: 8.39</i>	Narasaraopet November 2021 - May 2025
Sri Gowthami Junior college MPC Board of Intermediate <i>CGPA: 9.55</i>	chirala June 2019 - April 2021
Raghavendra English Medium School Degree in SSC <i>GPA: 9.7</i>	chirala june 2018 - april 2019

EXPERIENCE

Smart Internz Salesforce During the 8 weeks of the virtual internship,I completed the Salesforce trailhead modules like <ul style="list-style-type: none">• Salesforce Fundamentals• types of flows• how to create the playgrounds, objects, classes etc• lightning web components	virtual internship November 2023 - December 2023
CODTECH IT Solutions Data Science Intern During the 4 weeks of virtual internship, I completed the tasks given by the codtech it solutions <ul style="list-style-type: none">• task1 is credit card fraud detection• task2 Titanic survival prediction by using the above two tasks i learned how the data can be preprocessed, visualized, data can be build and tested etc.	virtual internship April 2024 - May 2024
CODSOFT Data Science Intern In this internship they had gave me four tasks: <ul style="list-style-type: none">• Titanic surviaval Prediction:task-1• Movies Prediction using python:task-2• Iris Classification:task-3• Sales Prediction using python:task-4	virtual internship May 2024 - June 2024

SKILLS

Programming Languages:	C(basics), python, Java(basics), Data Science
Libraries/Frameworks:	Javascript, React, angular, css
Tools / Platforms:	Visual studio Code, Eclipse, Power BI
Databases:	oracle, mongodb, JDBC

PROJECTS / OPEN-SOURCE

Reducing agricultural pesticides to improve human life span Link From the above project, we designed a website for the farmers how to reduce the agricultural pesticides <ul style="list-style-type: none">• by using the natural pesticides only etc	<i>Angular,javascript,Bootstrap</i>
Ecommerce website Link In this project, i designed the website for the shopping. In this website, shopping items like tvs,acs, mobiles, dresses, laptops, etc <ul style="list-style-type: none">• suppose the if the customer wants the product keep it in the wishlist, after that they have to buy the product.	<i>Vitejs,React,Mongodb</i>

Titanic survival prediction using machine learning | [Link](#)

datascience, machine learning

In this project, whether the passenger is died in the titanic ship or not we have to predict in this project

CERTIFICATIONS

- Salesforce - **smartbridge,salesforce,aicte,smart internz**
- Python (Basic) - **hackerrank**
- javascript(intermediate) - **hackerrank**
- Angular - **Infosys SpringBoard**
- SQL (Basics) - **hackerrank**
- python Data structures - **Solo learn**
- python Data Science - **Solo learn**
- HTML - **Solo learn**

HONORS & AWARDS

- I won the 3rd prize in the Hackthon which was conducted by the SUPRAJA TECHNOLOGIES
- I got the prize in the College in the program of the NATIONAL LEVEL IDEATHON-2022
- I was selected as the best intern of the month in the CODTECH IT SOLUTIONS
